

# Changes to Discuss

Your doctor may want to know about any changes in your life since your last appointment. It is useful to consider what you should say before you see the doctor. The list below can help. Of course, all the things on this list won't apply at every visit! Make a copy of the blank list so you will always have a clean copy to use. Then, take a minute to think about each of these possible topics. You may want to jot down when you first noticed each change. You can use the last column to note any additional information that may be helpful for the doctor to know.
